FIVE HUNDRED PASSENGERS REACH PORT IN PACIFIC MAIL MONGOLIA

One Hundred and Twenty-Five For Honolulu—Liner Persia Also In From the Orient With a Host of Chinese Students. Inter-Island Steamers Are Loading For Various Ports of Call.

Missionaries, married and single, with families and without, pretty and plain, blondes and brunettes, to the number of nearly fifty, were quite a factor in the daily life of some five hundred passengers who arrived at Honolulu from the coast this morning with the Pacific Mail liner Mongolia.

Despite the "hoodoo" which the gentle missionary generally inspires in the breast of the sailor man, the good ship Mongolia came alongside Alakea wharf at ten o'clock without an unpleasant incident.

Officers report a rather quiet trip. Despite the crowd in the cabin, there was no very great display of hilarity, unless a delightful little hop arranged by Captain H. E. Morton and Purser Ludwigsen, could be counted upon as a marked diversion.

Some interest centered in the George Beckley bridal party, which before embarking at San Francisco was the recipient of a boisterous demonstration upon the part of the Hawaiian delegation always to be found at the coast port.

The Beckleys returned in the bridal suite de lux, with a retinue of servants including a secretary, maid and chauffeur.

For Manila, there is a number of Philippine Insular government employees who will take up work with the service in various capacities. The missionaries are to leave the vessel at the several Japanese ports and from there become scattered throughout Japan, Korea and North China.

Leaving the Mongolia at Honolulu were 94 cabin, 20 second class and 123 Asiatic passengers. The through list included 147 cabin, 11 second class and 229 Asiatic passengers.

Before the vessel departs for Japan and Manila at five o'clock this evening, some seven hundred tons general cargo will be left here. The Mongolia was brought alongside the wharf without difficulty through the pilotage of Captain Lorenzen, though the liner was well down in the water with over nine thousand tons freight and supplies for discharge at the Philippine port.

No complaint was registered against the weather. The passengers were permitted to spend the greater part of the days out of doors. No sickness is reported and but few changes in the official staff. The Mongolia now has a new store keeper in the person of G. A. Cleghorn, who takes over the duties formerly presided over by E. Jones.

A mail amounting to 390 sacks were received by the postal officials. A large delegation of Japanese are booked to depart for the Orient this evening.

One of the picturesque incidents with the arrival of the Mongolia from San Francisco this morning was the advent of thirteen Gypsies who are said to have come with a steamer for Australia. Three women and seven men besides a number of children were in the party. They proved an attraction for spectators at the wharf, arrayed as they were in the gayest attire.

Wharf Gates Please Officials. After a year or more trying experience at Alakea wharf with a crowding host of idle spectators with the arrival of most every steamer, the harbor commissioners have scored one point which will go clattering down the corridors of time and at the same time meeting with the approval of a squad of customs and wharf officials.

The upper gallery of the wharf has been fenced. When the general public surged to the upper levels this morning to await the berthing of the Mongolia they for once found their way blocked by a substantial barrier. The fence extends across the gallery at a point sufficiently distant from the gangway to keep it clear of spectators. Entrance to the reserved portion of the gallery was through a gate over which presided Wharfinger James Fox, and one or more customs officers. Only to those who had business with the ship was admittance granted to that portion of the enclosure from which the gangway leads to the ship.

The innovation worked out very

satisfactorily. Passengers leaving the Mongolia were not jostled and obliged to force their way through packed lanes of idle curious, insistent hack and automobile chauffeurs and runners for a variety of steam landrakes as has been the rule for months past and to the distress of all concerned with the berthing and handling of steamers.

Welch to Fumigate. The bark Andrew Welch will, after taking several hundred tons additional sugar ballast, be hauled to quarantine wharf, there to receive fumigation prior to the dispatch of that vessel for San Francisco. A half dozen passengers have signified their intention of embarking in the well known windjammer for a voyage to the mainland.

Much Sugar at Makawili. Sugar awaiting shipment on Kaula according to report from Purser Kent of the steamer Kinai includes the following: K. S. M. 2400, V. K. 1250, Mak. 57,292, G. & R. 1250, K. S. Co. 2000, L. P. 12,150.

Repeat Ready for Sea. The American schooner Repeat has been made ready for sea and it is the intention to dispatch this vessel for Puget Sound this afternoon. The Repeat was lying at the quarantine wharf undergoing fumigation this morning.

LITTLE HOPE FOR EMPRESS LINER

There is but little hope of saving the British liner Empress of China, now almost entirely submerged some forty miles from Yokohama, Japan, according to reports brought here this morning by Captain A. Lockett and Chief Officer Hill of the Pacific Mail steamer Persia.

The wrecked Empress of China was within plain sight of the officers and passengers in the Persia when the Pacific Mail steamer departed from Yokohama and began the ten-day voyage to Honolulu. It is said that nearly the whole of the cargo has been taken out from the liner, and at present divers are busy at work patching up the holes in the hull of the ship. Work is reported as progressing satisfactorily.

The discharging of cargo is still proceeding and up to the present 31,810 bags of flour have been discharged, and 165 packages of general merchandise. It is now hoped to get the fire started in one of the boilers, which will give steam to assist in the pumping operations.

The Persia officers say that the crew had been exceedingly well treated—their wages being paid up to the time of their arrival in Hongkong—and in order to give some expression to their appreciation, each member had subscribed twenty yen. The men were directed to the consul-general.

The Persia is well filled as far as cabin accommodations are concerned. Of the ninety-four through passengers, seventy-five are Chinese students proceeding to the mainland to take up a five-year course of instruction at the best universities and colleges in the land.

Four first-class, one second-class and twenty-nine Japanese passengers left the vessel at Honolulu. During the stay of the Persia at the Waikiki side of Alakea wharf, some three hundred tons of oriental merchandise and supplies were discharged.

A small number of Asiatic passengers are bound for the mainland in the steamer.

The Persia has a fair-sized cargo for the States, it consisting mainly of tea, silk and matting.

Taking the mail to the mainland, the liner will be dispatched for San Francisco at 1 o'clock this afternoon.

STUDENTS SEEK WESTERN IDEAS

Chinese Imperial Commissioner Tan Hui Chang, and Chung Wen Ao, in charge of seventy-four Chinese students en route to the United States by the way of San Francisco, spent a profitable day in sightseeing in Honolulu during the brief stay of the Pacific Mail liner Persia at this port.

Through courtesies granted by Federal Immigration and Customs service, the students were given the freedom of the city and in a body they marched up town, leaving the ship very shortly after the lines were made fast at Alakea wharf.

In quest of western learning, ideas and methods, the young Chinese, sixty-two being wards of the Imperial Chinese government, while ten are private pupils, are bound for the mainland, where they will be assigned to prominent American colleges, and there take up a course of study and training which will require five years to complete.

Tan Hui Chang, commissioner in charge of the party, proved an agreeable conversationalist when approached by a representative of the Bulletin.

The commissioner is no stranger to the United States or even the continent of Europe. He is a university graduate and has acted in the capacity of commissioner to several former student parties.

"The students will be distributed at a number of first class colleges, beginning with the west and continuing on to the Atlantic seaboard," he stated this morning.

KAPAA LAND IS NOW UP AGAIN

Governor Frear expects that some understanding may be come to during this week in connection with the Kapa land deal. He is expecting Senator Fairchild up to see him during the week, when some understanding should be come to one way or another.

"I have only just this morning got some information which I have been after all along," he said. "This was just exactly what was the action taken by the land board on the question. I asked Mr. Fairchild's attorneys for it a time and again, but could get no satisfaction."

"I also tried to get the minutes of the land board, but could not. I have now an understanding of the whole situation and expect that Senator Fairchild and I will talk it over during the week, as he stated that he would see me when he came up again."

IN CUBA'S OWN CLIMATE

—In Tampa, Fla., we make our cigars.

Thus we avoid paying a duty that would equal their cost.

This saving is put into the cigar. It shows in the tobacco—the choicest Havana leaf that Cuba produces.

—In the finish—the deft handwork of expert Cuban workmen.

And no imported cigar, at double the price, rivals in quality—in fragrance or in flavor.
